EXPERIENCE

XAV Technology, Pokhara — Frontend Developer Intern

April 2025 - PRESENT

Developed responsive UIs for 3+ client e-commerce platforms using React and Bootstrap, improving load speed and mobile usability.

EDUCATION

Gandaki College of Engineering and Science, Pokhara — Bachelors in Computer Engineering

October 2022 - September 2026

PROJECTS

PanaGhar — Backend Developer

Developing a full-stack book rental platform using MERN stack. Implementing backend APIs and user dashboard.

Tech Stack: HTML, TailwindCSS, JavaScript, NodeJS, ExpressJS

Apple Website Clone —

Built for animation practice and frontend optimization using GSAP and ThreeJS.

Wander Pokhara —

Web application for discovering/sharing unexplored destinations in Pokhara. I worked on the backend of this project.

Tech Stack: MongoDB, NodeJS, ExpressJS, TailwindCSS and Bootstrap.

INVOLVEMENTS & COMMUNITY ENGAGEMENT

Mentor — GCESGirlsTech

Delivered sessions on Git & GitHub and Design Thinking to female students, empowering them with essential dev tools and innovation skills.

Hour of Code — WLiT & WIIT

Delivered programming workshops (Hour of Code) to 30+ students in underserved Pokhara schools.

Fellow — WLiT

Completed a 9-months leadership-driven development program focused on project collaboration and mentorship.

College Representative — Code for Change Pokhara

Strengthened college-community ties and increased participation in coding challenges.

Event Co-ordinator — GCES IT Club

Organized tech workshops and events with 100+ participants, enhancing peer engagement.

ANAIS 2024 Participant — NAAMII

Attended Annual Nepal AI school, gaining hands-on experience in machine learning, AI ethics, and real-world applications through expert-led sessions.
